

Update
October 6, 2006

Wlpop Data Submitter Training: WHA Information Center will again conduct training sessions related to the Wlpop data submission and editing process. Our focus this year will be on changes in the record layout and data definitions due to the implementation of the UB04, changes in the race and ethnicity definitions to coincide with definitions at the federal level, and new administrative reports to assist with the error correction process. There will be ample time to ask questions if the issue(s) you are concerned about are not addressed during the presentation.

The five sessions will be held at four different locations and will run from 9:00 a.m. - 12:00 noon. Registration will begin at 8:30 a.m. and a continental breakfast will be available. As in the past, there is no registration fee.

Below are links to the registration form and a draft of the agenda. The registration form link leads you to links for the each session. There is no limit as to the number of individuals per facility who may attend, however the deadline for registration forms is **Wednesday, October 11**. Each form can accept four online registrants, so if you have more than that attending, you will need to submit multiple online forms. We hope to see you there!

2005 Inpatient Quality Indicators Report: The 2005 *Wisconsin Inpatient Quality Indicators Report* will be published to the WHAIC Web site the week of October 9. All facility QI contacts have been notified by e-mail of their opportunity to obtain a hard copy of this publication and receive their facility-specific results. The report includes, for the first time, results on six patient safety indicators.
